

Directions

OPTION 1

From Malaga Airport, the most obvious route to Acequias or Pinos del Valle would appear to be to head east on the N340 until you reach Motril, then head up the N323, taking the first sign for Durcal and turning right at the 'T' junction towards Niguelas. You would then drive about a mile from here before crossing the Rio Torrente and heading up the hill into Acequias. Park near the church and walk through the large gates opposite into the Tia Maria Community with its pool to the right and private gardens.

However... this route is OK if it is day-time and you want lunch on a beach etc., but it will almost certainly take longer than the longer route below.

OPTION 2

On leaving Malaga Airport head east towards Malaga - after 2 miles take the road north signed Archidona, Granada and follow signs for Granada all the way to Santa Fe, a district just outside Granada. Head south on the road signed Sierra Nevada. This is the N323 - you will pass Padul after about 15 minutes. Take the second sign for Durcal then follow directions as above from the 'T' junction.
